We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

IDENTIFYING INFORMATION

Name of Organization: Defense Logistics Agency
Principal Contact: Jimmy Parrish
Authorizing Official: Jimmy Parrish
Address: 8000 Jefferson Davis Highway
Phone/Fax: (804) 279-6949 / (804) 279-5892
EPA RCRA ID Number: VA3971520751

Facility Name: Defense Supply Center Richmond
Title: Environmental Protection Specialist
Title: Environmental Protection Specialist
City/State/Zip: Richmond, VA
Email: jimmy.parrish@dla.mil
Date: March 1, 2007

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Mercury **CASRN:** 7439-97-6

Narrative description of proposed project: Defense Supply Center Richmond removes approximately 15,000 fluorescent lamps from service each year. We are taking the NPEP Mercury Challenge and intend to capture and recycle the mercury in those bulbs.

How we will measure success: We will measure success by tracking the number of lamps crushed and estimating the amount of mercury in each lamp. We will also track the poundage of lamp residue to include the mercury sent for recycling.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of _____ pounds in _____ (month/year) to a reduced amount of _____ pounds generated/used by _____ (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- | | |
|---|--|
| <input type="checkbox"/> Equipment or technology modifications. | <input type="checkbox"/> Process or procedure modifications. |
| <input type="checkbox"/> Reformulation or redesign of products. | <input type="checkbox"/> Substitution of less toxic raw materials. |
| <input type="checkbox"/> Improvements in inventory control. | <input type="checkbox"/> Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> Other (describe): _____ | |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of 0 pounds in January, 2007 (month/year) to an increased quantity of 1 pounds by January, 2010 (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- ☒ Direct use/reuse in a process to make a product.
☒ Processing the waste to recover or regenerate a usable product.
☐ Using/reusing waste as a substitute for a commercial product.
☐ Other (describe): _____

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). ☒ Yes ☐ No
